Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This action is in response to a RCE submitted 10/29/2008. Applicant has canceled Claims 1-27 and added new Claims 28-49. After careful considerations, Claims 28-49 has been rejected as set forth in detail below.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 28-49 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. No amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

"identifying a position taken by a user with respect to the tradeable object, wherein the position is associated with a quantity of the tradeable object that has been bought or sold by the user at a price," "computing a plurality of values based on the position, wherein each of the plurality of values represents a profit or loss if the position is closed at a price level," "displaying a first indicator corresponding to a first value... wherein the first value represents a profit or loss incurred by the user if the position is closed at the price," and "moving the first indicatorwherein second value represents a profit or loss incurred by the user

Art Unit: 3696

if the position is closed at the update to the price." (The Examiner notes that the only place "position" was mentioned in Applicant's Specification is on Page 27, lines 11-12 and it's talking about position of a cursor and has nothing to do with "a position associated with a quantity of the tradeable object that has been bought or sold by the user at a price.") Applicant is required to cancel the new matter in the reply to this Office Action.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 28-49 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. More specifically, independent claim 28 states "identify a position taken by a user... wherein the position is associated with a quantity of the tradeable object that has been bought or sold by the user at a price," and "plurality of values represents a profit or loss if the position is closed at a price level." If a position has already been taken and it is associated with something that has already been bought or sold at a price by the user, it is unclear what the Applicant meant by the position is "closed" at a price level? Appropriate correction is required.
